

THE CHARITY FOR MEMBERS OF THE HTA
Supporting you in times of need

Can we help?

The HTA Benevolent Fund cares for the welfare of members of the HTA, and their employees.

We help members including retailers, growers and landscapers who are facing hardship by providing grants and financial assistance. To be eligible for help, individuals need to work for a current HTA member. Or they need to have been employed by a business when it was an HTA member. As well as helping the individual we can also help their direct family.

We can help you with:

- Health concerns
- Old age
- Bereavement
- Disability
- Domestic issues
- Financial hardship

John's* nursery business was struggling

A severe storm and poor health saw John struggling to manage his family nursery business. With limited financial income the family were unable to fully manage their supplier costs and other expenses. As an HTA member John was put in touch with the HTA Benevolent Fund by his HTA regional business manager and support was quickly provided.

Peter* unable to work due to ill health

Peter, an ex-garden centre employee, had suffered with ill health for several years. As a result he had very little disposable income to afford to the care he really needed. As Peter was once employed by a past HTA member business he was eligible for help from the HTA Benevolent Fund. He benefited greatly from medically approved furnishings around the home to ease his pain and provide comfort.

*Name has been changed to protect client confidentiality

If you are or have been an HTA member or employed by an HTA member business, and are facing hardship, we are here to help you.
